LILY MORRIS

Aspiring Degree Apprentice

Southport, Merseyside | lilyskymorris@gmail.com | +44 7378302754

SUMMARY:

Motivated student studying Computer Science, CyberEPQ, Graphics, Photography and Core Maths at Cardinal Newman College. Experienced in software testing and collaborative projects, with strong communication, analytical and problem-solving skills.

TECHNICAL EXPERIENCE:

Aerospace Engineering Work Experience | QinetiQ

October 202

Worked in a team on a simulated brief to design a spacecraft capable of supporting civilisation for an extended period. Responsibilities included cybersecurity, budgeting, and 3D-modelled mock-ups. A key contribution was assessing the risk level of potential threats using a risk matrix.

Skills Gained: *Assessing risk | collaboration | problem solving | time management*

ICT Volunteer | Ghana

February 2023

Helped fundraise for an ICT suite at our sister school in Ghana. Alongside nine other students, travelled to help build the facility and train students and teachers to use the technology.

Skills Gained: *Collaboration | Adaptability | communication | fundraising | technical skills*

Software Tester | PlaytestCloud

December 2022 - December 2023

Followed briefs to use software for a set period while narrating thoughts and recording gameplay. Tests involved checking for bugs, assessing usability, and identifying potential improvements.

Skills Gained: *Written and verbal communication | analytical thinking | attention to detail*

WORK EXPERIENCE:

Team Member | Coffee House

June 2026 - Present

Preparing and serving food and drinks, assisting customers, handling payments, opening and closing, as well as supporting newer colleagues.

Skills Gained: *Clear communication | customer support | leadership | time management*

Team Member | Kaspa's

February 2025 – June 2026

Worked in a fast-paced environment preparing desserts and drinks, taking orders, and closing the store.

Skills Gained: *Efficiency | dealing with pressure | communication | teamwork*

Advertising and Marketing Intern - Sprachaffe Language School - Malta

May 2025

Created Instagram advertising for Sprachaffe Language School and promotional content for local business partners. Introduced the team to Photopea as a more versatile design tool to help improve efficiency.

Skills Gained: *Communication | efficiency | teaching | collaboration | creativity | initiative*

EDUCATION:

Cardinal Newman College: 2024 - 2027

A levels: Graphics (A Achieved) | Computer Science (B Achieved) | Photography (A Predicted) | AS Core Maths (B Predicted) | CyberEPQ (A Predicted)

Greenbank High School: 2019 - 2024

11 GCSEs including Maths (7) and English (6)

ACHIEVEMENTS:

Founder, Cardinal Newman Hack Club:

I established "Hack club" at my college which is a nonprofit community, providing young people access to fun challenges in exchange for developing their technical skills.

Cabin Crew Level 3 Certificate:

Taught me the importance of following procedures and safety protocols, as well as working as a team in a high-pressure environment.

Mathematics of morality & Dilemmas & Dangers of AI Certificates:

Explored ethical issues and philosophical questions relating to the two topics, making me think about the real-world impact that these areas have.

PERSONAL PROJECTS:

Portfolio website:

Used HTML & CSS to create a portfolio website to showcase my projects

Skills Gained: *HTML | CSS | Creativity*

NFC Keychain:

Developed skills in electronics by designing an NFC PCB that links to my portfolio

Skills Gained: *Schematic design | EasyEDA | 3D modeling | circuit design*

Roblox Game Development:

I followed tutorials to teach myself basic Lua, in order to code kill bricks and checkpoints in my Roblox "obby" game.

Skills Gained: *Learning | following instructions | creativity | Lua*

Top-Down C# Game Development:

I used C# and Monogame to create an educational top-down game set inside a CPU aiming to teach the users theory about the various components

Skills Gained: *C# | Documentation | attention to detail*
